

FOR IMMEDIATE RELEASE

## The Golf Buggy Guy & Revion Vehicle Technologies Announce a Strategic Partnership with Robust Energy Solutions to become the Exclusive Provider of Made-in-the-Emirates Lithium Batteries under the AMPCore Energy Brand

Dubai, UAE – 10<sup>th</sup> May 2026 – The Golf Buggy Guy is proud to announce a new strategic partnership with Robust Energy Solutions, becoming the exclusive provider of Made-in-the-Emirates lithium batteries for Low-Speed Vehicles (LSVs) under the brand AMPCore Energy in the UAE.

This strategic partnership marks a major step forward for The Golf Buggy Guy as it expands its offering of advanced energy solutions tailored specifically for the LSV micro-mobility market. Through this collaboration, customers across the UAE will now have access to premium lithium battery technology that is locally developed, high-performing, and designed to meet the demands of the region.

Under the AmpCore Energy brand, these innovative lithium batteries combine robust engineering, dependable performance, and the advantage of local manufacturing. Designed

specifically for LSVs, the battery range delivers a powerful solution for operators seeking improved efficiency, durability, and long-term value.

- **Key features of the new AMPCORE Energy lithium battery range include:**
- **Made in the Emirates design and manufacturing**
- **Advanced lithium battery technology**
- **Reliable power delivery tailored for LSVs in UAE operating conditions**
- **Long-lasting durability and reduced maintenance requirements**
- **Up to an eight-year warranty**
- **Exclusive local distribution, support and availability through The Golf Buggy Guy**

This partnership reinforces The Golf Buggy Guy's commitment to bringing innovative, reliable, and market-leading solutions to Low-Speed Vehicle owners and operators, as well as resorts, golf clubs, hospitality venues, and commercial users throughout the UAE.

#### Quoted Statements

"Richard Bellia, Founder of The Golf Buggy Guy commented "We are delighted to partner with Robust Energy Solutions as the exclusive distributor of their Made-in-the-Emirates lithium batteries under the AMPCore Energy brand. This partnership reflects our ongoing commitment to delivering high-quality, innovative solutions to the UAE market. With advanced lithium technology, local UAE development and manufacturing, and up to an eight-year warranty, AMPCore Energy represents a compelling new standard for LSV power solutions in the UAE and region."

"Farid Fatourehchi, Board Member commented "We are proud to enter this strategic partnership with The Golf Buggy Guy, a trusted and established name in the UAE LSV sector. Through AmpCore Energy, we are bringing to market a premium lithium battery solution that reflects the strength of local manufacturing, advanced technology, & long-term reliability."

The new AmpCore Energy range is expected to set a new benchmark in battery performance for the LSV micro-mobility sector in the UAE, while also supporting the country's broader vision for industrial innovation, sustainability, and local manufacturing excellence.

For customers seeking a dependable, efficient, and locally made lithium battery solution, AmpCore Energy offers a strong new option backed by The Golf Buggy Guy's expertise and service support.

## About The Golf Buggy Guy:

The Golf Buggy Guy is a UAE-based specialist in low-speed vehicle solutions, supporting resorts, hospitality venues, commercial operators, communities and private owners. As one of the fastest-growing LSV companies in the MENA region, it operates the largest golf buggy rental fleet in the UAE, with more than 500 units available for short- and long-term hire. The company's focus is on service excellence and delivering complete mobility solutions, not simply selling products. From expert guidance and flexible rentals to aftersales support and AmpCore Energy lithium battery technology, The Golf Buggy Guy helps customers improve performance, reduce downtime and achieve long-term value.

## About Robust Energy Solutions:

Robust Energy Solution is a UAE-based manufacturer of advanced energy storage systems, operating from Jebel Ali Free Zone and specializing in LiFePO4 battery technology. The company develops and supplies customized solutions for commercial, industrial, off-grid, marine, and mobility applications, combining local manufacturing strength with international quality standards. Through its focus on safety, reliability, and scalable deployment, Robust Energy Solution is supporting the region's transition toward cleaner, smarter, and more resilient energy infrastructure.
